Waste Eliminating Solution

▶ Watch video

EcoTab™ Electrically Driven Brush System

Benefits

- No more glue-tab waste in your boxes
- Prevents jams in your glue station
- Increased production speed
- Brushes are adjustable in height to follow your flute thickness or warped board
- Fully electrically driven system, low energy consumption

Time-Saving Solution

Save up to 3-4 hours of maintenance time!

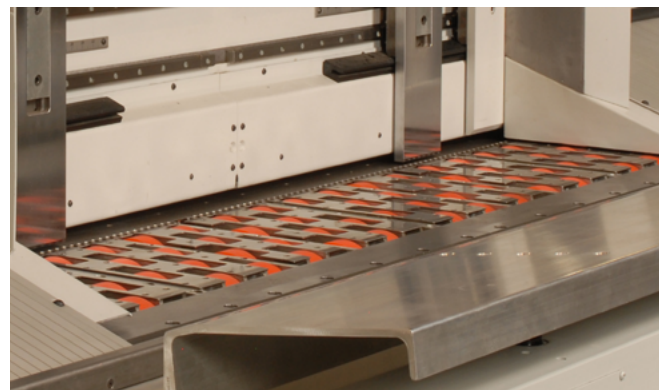

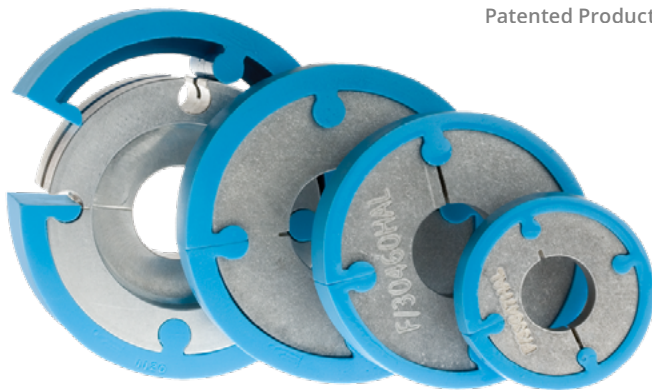

Wrap-On™

Dicar Wrap-on™ wheels have a huge effect on downtime. Change-over time usually takes 5 hours. Wrap-on hub and wheel combination reduces this to 1 hour.

Benefits

- One-time investment in hubs, forever saving maintenance time
- Prevents slipping of the wheels
- Assures correct paperfeed, also on E- and B-Flute

Patented Product

Safety Increasing Solution

AnviLatch™

Benefits

- Eliminates the need of mallets or hammers
- Cover installing free of injuries
- No heavy physical effort required

Mounting

- Place the Anvilatch device on the drum and position the Safety Guard...
- Place the lead edge of the cover in the mounting slot...
- Rotate the drum and cylinder...
- And the Anvilatch secures the lock without the use of other manual tooling.
